

# ENVIRONMENTAL LAW SOCIETY

## LAW CENTRE - I

Faculty of Law, University of Delhi

### Celebrate a Green Diwali

As we welcome the festival of lights, *Aranya* (अरण्य) – The Environmental Law Society, Law Centre-I, extends warm wishes to all students, faculty, and staff for a safe, joyful, and eco-conscious Diwali.

This festive season, let us remember our shared responsibility towards the environment. Firecrackers, while traditional in some celebrations, significantly contribute to air and noise pollution, affecting public health, animals, and the overall ecological balance. We encourage everyone to celebrate Diwali in a way that upholds both tradition and sustainability.

Let us embrace:

- The beauty of diyas and candles
- The colours of rangoli
- The warmth of digital greetings
- The joy of togetherness – without harming our surroundings

Together, let us illuminate not just our homes, but also our consciousness – for a healthier planet and a brighter future.
